

HS9 STAKKABOX™ ULTIMA ADJUSTABLE FRAME AND SURROUND KIT

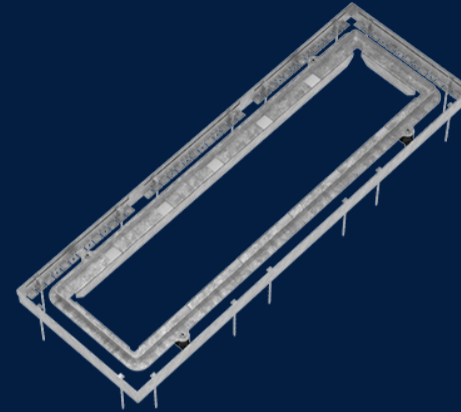

Product Code: 50203930

HS9 frame and surround kit is suited for the HS9 pit, HS9 being the largest option from the high strength range. It was designed for an ease of transportation, quick assembly and ground level adjustability. The unique features allow the HS9 frame to be adjusted to suit the surrounding environment, as well as simplifying the installation process.

 MATERIAL
Galvanised Mild Steel (GMS)

 SIZE
2200mm (L) x 740mm (W) x 1046mm (D)

 LOAD RATING
B

Features & benefits

Adjustable frame

The supporting composite cover frame can be adjusted up to 4 degrees to suit the ground level.

Lightweight parts

Can be transported by a ute and assembled by a single person without the need of heavy lifting machinery.

Quick assembly

Can be completed start to finish within less than hour.

Full specifications

Material	Galvanised Mild Steel (GMS)
How it works	HS9 supporting kit and frame can be adjusted up to 4 degrees to suit the ground level. HS pits are designed for brownfield application to simplify replacing pits with existing wires without compromising the strength of the pit.
