

AX S™ P6 COVER CONCRETE TPG CLASS A

Product Code: 50201178

Infrastructure Products Australia offers innovative access cover solutions for major industry authorities that have been proven for their strength, durability and consideration of unique telecommunications and energy sector requirements.

 MATERIAL
Precast Concrete

 SIZE
651mm (L) x 499mm (W) x 50mm (D)

 LOAD RATING
A

Features & benefits

Steel reinforced for robustness

Our precast concrete covers are manufactured using minimum 40MPa steel reinforced concrete to ensure strength and integrity of the cover.

Variability in size

Our range of precast concrete covers come in a variety of sizes to ensure you have the right cover for your project.

Nationally approved for key industry authorities

Many networks and asset owners have approved our precast concrete cover range for specific project requirements.

Full specifications

Material	High strength concrete has a compressive strength of 40MPa or greater. Infrastructure Products Australia manufactures their precast concrete covers using steel reinforced concrete to ensure a minimum of 40MPa. This ensures that the covers remain durable and robust throughout their lifetime.
Load Rating	Infrastructure Products' precast concrete covers are manufactured to a Class A load rating (ultimate limit state design of 10kN) under the Australian Standard AS/NZ 3996. This makes our precast concrete covers suitable for areas accessible by pedestrians.

*PIT NOT INCLUDED
