# MONOBOX™ RAIL ROUND DIA1050X1200

Product Code: 50201232

Infrastructure Products Australia have developed a range of circular plastic pits and access cover products to service the energy, rail and road sectors.

MATERIAL

High Density Polyethylene (HDPE)

SIZI

(L) x 1122mm (W) x 1225mm (D)

LOAD RATING

### Features & benefits

#### Reputable product range

Our MONObox<sup>™</sup> plastic pit range is used across a variety of telecommunications, electrical, air, rail and road projects, providing a reputable product to make sure you are completely satisfied with your pit.

#### Extensive lifespan

Manufactured by a rotational moulding process using black ultra violet light stabilised polyethylene material, your pit is guaranteed to be durable and withstand harsh outdoor conditions.

#### Manufactured from recycled materials

Our MONObox<sup>™</sup> plastic pit range is manufactured from up to 90% recycled materials ensuring that your pit solution is sustainable and environmentally considerate.

## Full specifications

Material	Infrastructure Products Australia' MONObox™
	circular plastic pits are manufactured by a
	rotational moulding process using black ultra violet
	light stabilised high density polyethylene material
	and have been developed in partnership with
	industry and major authorities to ensure they meet
	the stringent requirements for installation and

long-term use.

Australian Our MONObox<sup>™</sup> plastic pit range is designed and Standards tested to Class A applications, under the

Australian Standard AS/NZ 3996. Under specific conditions, MONObox<sup>™</sup> pits can be rated up to Class B (See Load Rating section below).

Load Rating Our MONObox<sup>™</sup> circular plastic pits are

manufactured a Class B load rating (ultimate limit state design load of 10kN) under the Australian

Standard AS/NZ 3996.
