

AX S™ P5 COVER COMPOSITE SMART AARNET LOCK ADAPT CLASS B

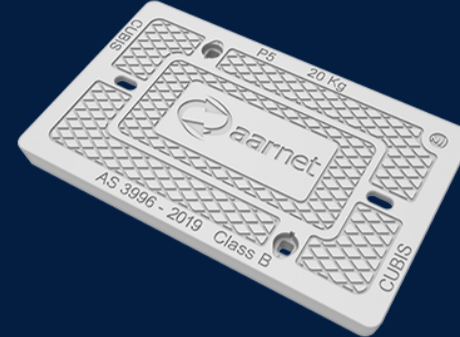

Product Code: 50202580

Designed by Infrastructure Products Australia technical team, our composite covers are durable, slip-resistant and meet Australian Standard - AS/NZ 3996.

 MATERIAL
Composite

 SIZE
647mm (L) x 397mm (W) x 50mm (D)

 LOAD RATING
B

Features & benefits

Slip resistant

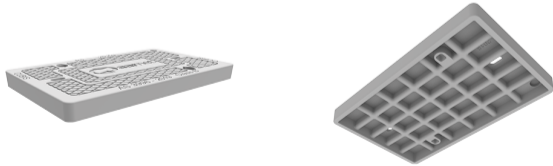

Our composite covers are at the highest slip resistance classification rating against AS 4586.

UV resistant

Composite covers are UV stabilised to ensure they remain robust, slip resistant and aesthetic even with extended exposure to extreme UV.

Variability in size

Our range of composite covers come in a variety of sizes to ensure you have the right cover for your project.

Full specifications

Material	Composite covers are constructed from a reinforced composite that results in a more robust and withstanding product in comparison to regular concrete covers. They are also lightweight and exceed typical OH&S standards, making them suitable for a one person lift.
Load Rating	Composite covers are a Class B load rating (ultimate limit state design of 100kN) under the Australian Standard AS/NZ 3996. This makes our composite covers suitable for private and shared residential property and vehicles accessing driveways.
