RISER CONCRETE 200MM TO SUIT C5 SL2 COVER

Product Code: 50202487

MATERIAL Precast Concrete

SIZE

850mm (L) x 603mm (W) x 245mm (D)

LOAD RATING

Features & benefits

Steel reinforced for robustness

Our precast concrete covers are manufactured using minimum 40MPa steel reinforced concrete to the ensure strength and integrity of the cover.

Variability in size

Our range of precast concrete covers come in a variety of sizes to ensure you have the right cover for your project.

Nationally approved for key industry authorities

Many networks and asset owners have approved our precast concrete cover range for specific project requirements.

Full specifications

Load Rating

| Material | High strength concrete has a compressive strength of 40MPa or greater. Infrastructure Products Australia manufactures their precast concrete cable pits using a fibre reinforced concrete mix to ensure a minimum of 40MPa. This attests to our pits remaining durable and robust throughout their lifetime. |
|-------------------------|--|
| Australian Standards | Our precast concrete cover range is designed and built for a Class D load rating, meeting the Australian Standard AS/NZ 3996 |

Australian Standard AS/NZ 3996.

Infrastructure Products' precast concrete covers are manufactured to a Class D load rating (ultimate limit state design of 10kN) under the

Australian Standard AS/NZ 3996. This makes our precast concrete covers suitable for areas

accessible by pedestrians
