BASE SLAB TMR 900-2A 2400MM NOMINAL LENGTH

Product Code: 50207213

Base slabs are TMR approved products and they were designed to create a flat base for box culverts. They are made out of fibre reinforced concrete that has a lifespan of 100 years.

MATERIAL

Precast Concrete

SIZE

2400mm (L) x 900mm (W) x 280mm (D)

LOAD RATING

Features & benefits

High flow drainage

Base slabs help channel the water away quickly to prevent flooding.

"U" shape

When the box culverts are inverted, base slab becomes the roof of the culvert.

Full specifications

Material

40MPa fibre reinforced concrete is a high strength concrete used to make box culverts. The rating of 40MPa or greater means that box culverts will remain durable and robust throughout their

Australian Standards

AS 3996: 2019

lifetime.

How it works

Base slabs are dropped into place followed by box culverts. If box culverts run parallel, then a link slab is placed in between to enclose the middle conduit. Minimal amount of backfill is required to complete the project.
