

PIT CONCRETE 445X445X1000X100MM WITH 4 OFF K/O PER WALL CLASS D AUSPITS

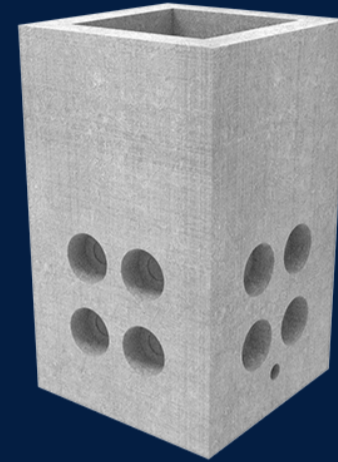

Product Code: 50204351

Infrastructure Products Australia works closely with key industry groups and authorities to develop its extensive precast concrete cable pit range, delivering innovative solutions proven for their strength, durability and consideration of unique sector requirements.

 MATERIAL
Precast Concrete

 SIZE
650mm (L) x 650mm (W) x 1100mm (D)

 LOAD RATING
D

Features & benefits

Bespoke Capabilities

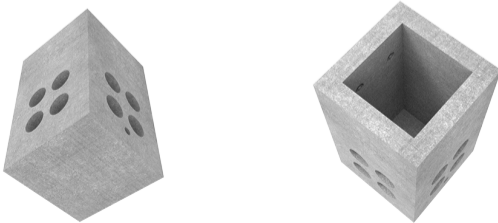

Customisation of our precast concrete pits is available to suit the unique requirements of your project, so that you can be confident you're getting exactly what you need.

Robust Cover and Security Options

Multiple access cover, riser and encasement options are available to add extra depth, security and access preferences to the pit.

Design Support and Industry Experience

Infrastructure Products Australia's in-house design and engineering team can support you with industry experience in identifying all your unique project requirements to ensure you get the correct solution.

Full specifications

Material	High strength concrete has a compressive strength of 40MPa or greater. Infrastructure Products Australia manufactures their precast concrete tradewaste pits using fibre reinforced concrete mix to ensure a minimum of 40MPa. This ensures that the pits remain durable and robust throughout their lifetime.
Australian Standards	Our precast concrete tradewaste pits are designed and built for a Class D load rating, meeting the Australian standard AS/NZ 3996. We also use minimum 40MPa concrete to ensure robustness and superior asset protection.
Load Rating	Our precast concrete pits are manufactured a Class D load rating (ultimate limit state design of 900 kN) under the standard the Australian Standard AS/NZ 3996.
